Additional Reporting Requirement for Staffing

The number, type and distribution of staff as described in the contract staffing plan shall be maintained throughout the term of the contract. Written requests to change the number, type and/or distribution of staff described in the staffing plan must be submitted to the Contracting Officer (CO) for approval prior to implementation.

Staffing levels shall not fall below a monthly average of 90% for Detention Security Services, 85% for Medical Services and 85% for all other departments of the United States Marshal Service (USMS) approved staffing plan. Staffing levels for all departments other than Detention Security Services and Medical Services will be calculated in the aggregate.

Each month, the contractor shall submit to the CO the current average monthly vacancy rate, by department, and indicate any individual positions that have been vacant more than 30 days. Failure to fill any individual position within 120 days of the vacancy may result in a deduction from the monthly invoice. The USMS may calculate the deduction retroactive to day one of the vacancy and concluding on the entry on duty (EOD) date, excluding the days for the USMS conditional approval process.

Positions not on the approved staffing plan shall not be used to offset staffing vacancies unless the contractor receives prior written authorization from the CO.

SECTION B SUPPLIES OR SERVICES AND PRICES/COSTS

B.1 SERVICES AND PRICES

(a) NONPERSONAL SERVICES

The contractor shall provide all personnel, equipment, tools, materials, supervision, and other items and services necessary to perform the management and operation of a contractor-owned/contractor-operated detention facility for federal detainees as defined in this Request for Proposal (RFP).

These comprehensive detention services will serve a population principally consisting of individuals charged with federal offenses and detained while awaiting trial or sentencing.

The period of performance for any contract, which the Government may award under the terms and conditions of this RFP, will be for a five-year base period, with up to three five-year options to extend. Potentially, the contract could be for a twenty year period.

(b) PRICING INSTRUCTIONS

For purposes of this solicitation, the offeror must submit an offer for the total five-year base period requirement and each option period. The prices will be for providing all services as required by the solicitation.

For each performance year of the multi-year base and option periods, the Government will notify the contractor that funds are available for performance no later than the first day of the pertinent fiscal year. If the contractor is not notified funds are available, cancellation of the contract will occur within 60 days of the start of the pertinent fiscal year.

Accordingly, years two, three, four and five of the base are subject to cancellation in the event funds are not available. The cancellation ceilings for the base period years are as follows:

Year 2 - 30% of the Total Base Period Price

Year 3 - 15% of the Total Base Period Price

Year 4 - 15% of the Total Base Period Price

Year 5 - 15% of the Total Base Period Price

There is no cancellation fee for option periods. Any cancellation and related contractor claim for costs will be handled according to FAR 52.217-2, Cancellation under Multi-year Contracts (See Section I of the solicitation) and the cancellation ceilings set forth above.

(c) PRICING SCHEDULE

For purposes of price evaluation and according to the above instructions, the offeror must enter the proposed prices on the Pricing Schedules as provided below:

Five Year Base Period: For the base period, offeror must submit one fixed price. The price will be for providing all services as required by the RFP for an Average Daily Population (ADP) aggregated monthly (equivalent to 75% of designated federal bed space) as stated in the individual schedules. Monthly payment shall be based upon the contractor's fixed price divided by 60 (the number of months within the performance period).

Fixed Incremental Unit Price - Offeror must submit an incremental unit price which will apply only when the daily population exceeds 75% of the designated bed space which is 750. Population will not exceed 100% of the designated bed space except in an emergency situation as declared by the USMS.

The population will be individuals charged with federal offenses and detained while awaiting trial or sentencing or hearings. The USMS and the Office of the Federal Detention Trustee (OFDT) will award a contract that allows the components of the Federal government, including the USMS, Bureau of Prisons (BOP), as well as the U.S. Immigration and Customs Enforcement (ICE) of the Department of Homeland Security (DHS), to house detainees at the facility.

The Facility shall have the capability to accommodate at least 1000 prisoners at a single site. The facility shall be located within a 75 mile radius of the Lloyd D. George - U.S. Federal Courthouse 333 Las Vegas Boulevard South, Suite 2058, Las Vegas, Nevada 89101. The facility shall also be located within appropriate proximity and access to emergency services (medical, fire protection, law enforcement, etc.). In addition, the institution shall include special housing units with a capacity of at least 10 percent of the detainee's beds at the facility. Additionally, the institution shall provide 300 secured beds within the general population.

The facility shall have five (5) sound proof video conferencing stations that permit prisoners and their attorneys to communicate in a secure manner which preserve the confidentiality of the attorney-client relationship and allow medical consultations.

Within 12 months of contract award, contract performance shall begin upon written issuance of the Notice to Proceed (NTP) signed by the CO. Upon receipt of the NTP, the contractor shall immediately begin accepting detainees. The Contractor's ability to perform in accordance with the terms of the contract will be assessed prior to issuance of the Notice to Proceed (NTP). (See Section F.2)

The initial acceptance of detainees into the facility shall be in accordance with an agreed upon plan to incrementally phase-in the detainee population. Approval for each initial increment of detainees to be admitted into the facility shall be obtained from the Contract Officer.

Unless otherwise specified, all plans, policies and procedures, including those identified in the ACA Standards and the *Federal Performance-Based Detention Standards (FPBDS)* located at www.usdoj.gov/ofdt/standards, shall be developed by the Contractor and submitted in writing to the CO for review and concurrence prior to issuance of the NTP. In cases where other standards conflict with USMS' Policy or Standards, USMS' Policy and Standards shall prevail.

Post-award, the CO may formally designate the COTR to assume some of those responsibilities. SECTION E INSPECTION AND ACCEPTANCE

E.1 52.246-4 INSPECTION OF SERVICES—FIXED-PRICE (AUG 1996)

(a) Definitions. "Services," as used in this clause, includes services performed, workmanship, and material furnished or utilized in the performance of services.

(b) The Contractor shall provide and maintain an inspection system acceptable to the Government covering the services under this contract. Complete records of all inspection work performed by the Contractor shall be maintained and made available to the Government during contract performance and for as long afterwards as the contract requires.

(c) The Government has the right to inspect and test all services called for by the contract, to the extent practicable at all times and places during the term of the contract. The Government shall perform inspections and tests in a manner that will not unduly delay the work.

(d) If the Government performs inspections or tests on the premises of the Contractor or a subcontractor, the Contractor shall furnish, and shall require subcontractors to furnish, at no increase in contract price, all reasonable facilities and assistance for the safe and convenient performance of these duties.

(e) If any of the services do not conform to contract requirements, the Government may require the Contractor to perform the services again in conformity with contract requirements, at no increase in contract amount. When the defects in services cannot be corrected by reperformance, the Government may (1) require the Contractor to take necessary action to ensure that future performance conforms to contract requirements and (2) reduce the contract price to reflect the reduced value of the services performed.

(f) If the Contractor fails to promptly perform the services again or to take the necessary action to ensure future performance in conformity with contract requirements, the Government may (1) by contract or otherwise, perform the services and charge to the Contractor any cost incurred by the Government that is directly related to the performance of such service or (2) terminate the contract for default.

E.2 CONTRACTOR QUALITY CONTROL PLAN

The contractor shall develop, maintain and submit a Quality Control Plan (QCP) delineating the contractor's quality control program/inspection system to monitor and control their performance of services required in order to meet the requirements of the PWS. The program/inspection system shall explain in detail how the contractor shall sustain the quality of providing Comprehensive Detention Services.

E.3 GOVERNMENT QUALITY ASSURANCE SURVEILLANCE PLAN

(a) The OFDT's Quality Assurance Surveillance Program (QAP) is based on the premise that the contractor, and not OFDT, is responsible for management and quality control actions to meet the terms of the contract. The QAP procedures recognize that the contractor is not a perfect manager and that unforeseen and uncontrollable problems do occur. Good management and use of an adequate Quality Control Plan will allow the contractor to operate within acceptable quality levels.

(b) In accordance with FAR 52.246-4, Inspection of Services--Fixed-Price, each phase of the services rendered under this contract is subject to OFDT inspection both during the contractor's operations and after completion of the tasks. When the contractor is advised of any unsatisfactory condition(s), the contractor shall submit a written report to the Contracting Officer (CO) addressing corrective/preventive actions taken. The OFDT's QAP is not a substitute for quality control by the contractor.

(c) The Contracting Officer's Technical Representatives (COTR) may check the contractor's performance and document any noncompliance, however, only the Contracting Officer may take formal action for unsatisfactory performance.

(d) The OFDT may reduce the contractor's invoice or otherwise withhold payment for any individual item of nonconformance observed as specified below in the Contractor's Failure to Provide Services Clause. The Government may apply various inspection and extrapolation techniques (i.e., 100 % surveillance, random sampling, planned sampling, unscheduled inspections, etc.) to determine the quality of services and the total payment due.

E.4 CONTRACTOR'S FAILURE TO PERFORM REQUIRED SERVICES

The rights of the Government and remedies described in this section are in addition to all other rights and remedies set forth in this solicitation. Specifically, the Government reserves its rights under the Inspection of Services and Termination Clauses. Any reductions in the contractor's invoice shall reflect the contract's reduced value resulting from the contractor's failure to perform required services. The contractor shall not be relieved of full performance of the services hereunder and may be terminated for default based upon inadequate performance of services, even if a reduction was previously taken for any inadequate performance.

E.5 FACILITY REVIEW (YEARLY)

The facility will be reviewed at least once every twelve months in accordance with the terms of the contract. Reviews will be done on a more frequent bases if specified in the contract, or if facility performances is found to be substandard.

(a) Review Process - A facility review will consist of five phases: pre-review preparation, on-site review, report production, review of conclusions, and follow-up review. If the facility has programs that receive "Deficient" or "At-Risk" performance ratings, the facility will undergo a follow-up review phase. If all of the facility's reviewed programs are judged to be "Acceptable" or better, the facility review will be closed after the facility has completed any specified corrective actions and action plans.

(b) Discovery of Deficiencies - The review team will investigate and report on any significant and relevant problems or areas needing improvement. Review team members will also examine the status and results of corrective actions implemented by the facility after recent reviews to determine whether the deficiencies have been remedied. A deficiency is defined as "a facility or facility administration problem or weakness noted by the review team that needs to be corrected." In its broadest sense, a deficiency includes any condition needing improvement, but the term "deficiency" also can be used to describe:

- Deviations from policy or regulation
- Weaknesses in internal controls
- Lack of quality controls
- Failure to observe accepted standards of practice for a particular profession
- Lack of operating efficiency

- Failure to meet program objectives
- Nonconformance with a key standard within the Performance-Based Detention Standards

(1) For each deficiency in a program area discovered during the on-site review, the Review Team Coordinator will determine whether the deficiency is indicative of a significant finding (i.e., a glaring deficiency or pattern of deficiencies substantial enough to conclude that corrective action is required). In evaluating the seriousness, or materiality, of each deficiency, the Review Team Coordinator will consider the risk presented by the deficiency to the facility's ability to effectively conform to the Performance-Based Detention Standards.

(2) If the Review Team Coordinator concludes that the deficiency is material enough to warrant a significant finding, the review team will collect and organize evidence of the deficiency in a manner that supports the significant finding and will investigate its causes and effects for inclusion in the facility review report. Each significant finding presented in the report will describe the deficient condition(s), provide one or more examples, explain why it is deficient, detail its existing and potential effects, suggest its probable cause, and identify required (binding) and recommended (non-binding) corrective action(s) to rectify the deficiency.

(3) Deficiencies deemed by the Review Team Coordinator to be insufficiently material to justify presentation, as one or more significant findings will be disclosed in a separate section of the facility review report. This separate section will include non-binding recommendations for corrective action that the contractor will be encouraged to implement. A contractor's failure to implement a non-binding recommendation will not, by itself, cause the facility to receive a lower performance rating during its next facility review. However, if the facility exhibits worsening performance partly as a result of not implementing the recommended corrective action, it could earn a lower performance rating during the next review.

(c) Life-Threatening Conditions and Public Safety Concerns - Review team members will alert the Review Team Coordinator to any facility conditions that might pose a threat to detainees' lives or compromise facility security to a degree that the lives of facility staff or the public are endangered. The Review Team Coordinator, in turn, will investigate the condition further with review team members. If the Review Team Coordinator confirms the condition's severity, he or she will discuss it with the contractor as soon as possible, and will encourage the contractor to correct the condition before the on-site inspection is completed.

(d) Fraud, Abuse, and Illegal Acts - The review team will inform the Review Team Coordinator if it discovers any evidence of fraud, abuse, or illegal acts. The Review Team Coordinator will inform the contractor of these discoveries and will include descriptions of the offending activities in a special and prominent section of the facility review report.

(e) Hindered Reviews - Facility programs that cannot be adequately reviewed due to a lack of cooperation from facility staff, the staff's failure to adequately prepare for the on-site inspection, or by interference with the review itself will receive an "At-Risk" performance rating for each program that was inadequately evaluated. In these cases, the review team will attempt to evaluate all programs to the extent possible despite the hindrances. The review team will complete a review report that includes descriptions of the manner in which the review team was prohibited from completing proper program evaluation.

(f) Cancellation of Reviews due to Unforeseen Circumstances - Scheduled and confirmed facility reviews that cannot be conducted due to circumstances beyond the control of the facility staff or the review team (e.g., inclement weather that precludes review team travel, a staff medical emergency, etc.) will be rescheduled for the earliest possible date. The Review Team Coordinator will inform the contractor of

the dates for the rescheduled review within 10 days of the original review's postponement. A contractor can request a facility review postponement by formally submitting this request to the Review Team Coordinator, along with an explanation of the circumstances justifying the cancellation. Facility review postponements and rescheduling will rarely occur. Each occurrence will be documented in the review file of the corresponding facility; this file will include a signed formal letter explaining why the postponement was needed.

(g) Performance Ratings - During a facility review, performance ratings will be assigned to the facility for each of the nine programs identified by the Performance-Based Detention Standards. The review team will use the following individual program performance ratings to assign an overall performance rating to the facility:

Excellent: The program conforms to the Performance-Based Detention Standards in an exceptional manner and conformance is maintained with exceptional internal controls. Policies and procedures for achieving the program standards are documented and adequate for the mission of the facility; the policies and procedures are communicated to staff; the policies and procedures are fully implemented; and the desired outcome is achieved. The level of performance in the aggregate exceeds the minimum performance standard by substantial margin; deficiencies are nonexistent or extremely minor.

Good: The program conforms to the Performance-Based Detention Standards in an acceptable manner. Internal controls limit procedural deficiencies. The facility more than accomplishes the requirements of program standards. The level of performance in the aggregate meets the performance standards; deficiencies are minor and offset by outstanding elements of performance within the review guideline.

Acceptable: The program is meeting the requirements of the Performance-Based Detention Standards. There are no breakdowns that would keep the program from continuing to accomplish the mission of the facility. Level of performance in the aggregate meets the performance standards; deficiencies are minor and there are no outstanding elements of performance present within the review guideline.

Deficient: The program is unable to meet the requirements of one or more of the Performance-Based Detention Standards. Internal controls are weak, resulting in serious deficiencies in one or more areas. The level of performance in the aggregate fails to meet the performance standard; deficiencies are pervasive.

At-Risk: Operation of the program is impaired to the point that the facility is unable to accomplish its mission. The program is unable to meet the requirements of the Performance-Based Detention Standards and is unlikely to meet those requirements in the foreseeable future without substantial corrective action. The level of performance in the aggregate fails to meet the performance standards; deficiencies require immediate corrective actions.

(h) Review Conclusions:

(1) Review of Initial Review Report - The Review Board will examine the initial facility review report and the recommendations produced by the review team, and will furnish the Review Team Coordinator with any changes within 10 calendar days after receiving the report. Review team members will be consulted to clarify any ratings that appear inconsistent with the report narrative.

(2) Transmittal of Report to Contractor - The Review Team Coordinator will make the stipulated report changes within 10 days after receiving comments from the Review Board, and will transmit the updated report to the Review Board, Contracting Officer and contractor. If no corrective actions are

required, the contractor will contact the Review Team Coordinator within 30 days to acknowledge receipt of the report, and at this time may comment on the contents of the report or the overall rating received. If corrective actions are required, the contractor will declare either agreement or disagreement with the binding recommendations in the report. If the contractor is in agreement with the findings, he/she will report back to the Review Team Coordinator on the steps taken to comply with the binding recommendations within 30 days of receiving the facility review report. For each action that the contractor does not expect to complete within 30 days, a written action plan identifying target dates for completing each major step will be developed and included in the report. The Review Team Coordinator will review the contractor administrator's response to ensure that it is complete and that all required corrective actions have been taken, or that an action plan has been developed to remedy significant findings within 90 days of the facility review report's issue. The facility Review Team Coordinator will forward all appropriate facility review documentation to the Contracting Officer, as necessary.

(3) Appeals of Review Findings - If the contractor disagrees with any finding, binding recommendation, or performance rating, he or she will submit a formal written appeal to the Review Board within 30 days of receiving the facility review report. In this appeal, the contractor will explain why a rating or finding is unjustified, or why a required action cannot or will not be taken. In the latter case, the contractor will suggest alternative methods of correcting the deficiency or of improving the program. The Review Board will evaluate the appeal and, if necessary, will discuss its merits with the review team. Within 30 days of receiving the appeal, the Review Board will decide whether to accept or deny the appeal and will send formal written notification of this decision through the Contracting Officer to the contractor and review team. If an appeal is accepted, the Review Team Coordinator will amend the facility review report to reflect approved changes. After decisions have been reached on any appeals, the Review Team Coordinator will distribute copies of the final version of the facility review report to all involved parties. The contractor will implement corrective actions and develop action plans for corrections that cannot be completed within 30 days. Corrective actions described by action plans will be completed within 90 days of the facility review report's issue.

(i) Follow-up Review

(1) Communication of Corrective Actions Needed - For each action that cannot be completed within 30 days, the contractor will develop a written action plan identifying target dates for completing each major step. All actions will be completed no more than 90 days after the issue of the final review report. The contractor will send the action plans to the Review Team Coordinator and Contracting Officer within 30 days of the final facility review report's issue. The Review Team Coordinator will review the action plans and will determine whether they will adequately address the underlying deficiencies.

(2) Review of Completed Corrective Actions - The contractor will implement all corrective actions specified in the final team report and will formally document the actions taken, sign this document, and submit it to the Review Team Coordinator or other designated monitor. After receiving documentation of completed corrective actions and action plans from the contractor, the review team will determine whether to conduct one or more follow-up reviews to verify firsthand that the deficiencies have been remedied. Follow-up inspections will be conducted within 30 days of receipt of documentation from the contractor. This inspection will focus only on the program(s) affected by the corrective actions. The Review Team Coordinator will verify that the documentation provided by the contractor is accurate and that the corrective actions taken do not reduce facility performance in other areas below an "Acceptable" level. The Review Team Coordinator will hold a closeout meeting with the contractor at the end of the follow-up inspection to discuss its preliminary conclusions.

(3) Follow-Up Review Report - No later than 14 days after the end of the follow-up inspection, the Review Team Coordinator or monitor will prepare a formal written report presenting the results of

the follow-up review, and will submit this report to the contractor and Review Board. If no on-site review is done, the report will be completed within 30 days of receipt of documentation from the contractor. This report will indicate whether the corrective actions sufficiently improve the affected facility programs to an "Acceptable" performance level or better. If the Review Team Coordinator or monitor deems that facility changes are adequate, the follow-up review and facility review will be closed, and the Contracting Officer and the contractor will be notified of the closure. None of the performance ratings for facility programs will be altered as a result of the follow-up review, no matter how well the facility addresses its deficiencies, and the next facility program reviews will be scheduled according to the procedures described previously.

(4) Appeals of Follow-Up Conclusions - If the Review Team Coordinator or monitor concludes that the corrective actions taken by the facility are inadequate to bring the reviewed facility programs to an "Acceptable" performance level or better, the contractor will be given 10 days to appeal this conclusion. To lodge an appeal, the contractor will formally submit a written letter detailing any flaws in the follow-up analysis and explaining why the facility's improvements meet the corrective actions prescribed. The Review Board will weigh the appeal and issue a decision no later than 10 days after receiving it. The follow-up review report will be amended to reflect the Review Board's decision, if the Review Board agrees with the contractor's argument. The follow-up review and facility review will be closed and the Contracting Officer and the contractor will be notified of the closure. The next facility program reviews will be scheduled.

(5) Filing and Retention of Review Report - When a facility review is closed, all reports completed as part of the facility review—including completed and closed follow-up review reports—will be included in the facility review file. An inventory of reports other background information regarding the facility's performance that were collected from other agencies during the pre-inspection preparation phase will also be kept. The government will retain these support documents and all working documents generated during a facility review in accordance with requirements in the FAR. Only one review file and set of support documents will be retained for each facility. After the retention period has elapsed, the government will archive the working documents in accordance with government regulations.

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am.

If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used.

All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials

are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the State or

local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an

employee where such cost reduces the hourly rate below that required by the wage

determination. The Department of Labor will accept payment in accordance with the

following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual

cost of the uniforms. In addition, where uniform cleaning and maintenance is made

the responsibility of the employee, all contractors and subcontractors subject to

this wage determination shall (in the absence of a bona fide collective bargaining

agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning

and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in

those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do

not require any special treatment such as dry cleaning, daily washing, or commercial

laundering in order to meet the cleanliness or appearance standards set by the terms

of the Government contract, by the contractor, by law, or by the nature of the work,

there is no requirement that employees be reimbursed for uniform maintenance costs.

Attachment 1

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A

links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE (Standard Form 1444 (SF 1444))

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. (See Section 4.6 (C) (vi))

When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation) and computes a proposed rate).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title), a Federal grade equivalency (FGE) for each proposed classification), job description), and rationale for proposed wage rate), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

Attachment 1

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

SMALL BUSINESS SUBCONTRACTING PLAN MODEL

CONTRACTOR: Corrections Corporation of America (CCA)

ADDRESS: 10 Burton Hills Boulevard

Nashville, Tennessee 37215

SOLICITATION/CONTRACT NUMBER: ODT-7-R-0001

CONTRACT VALUE: BASE _____ OPTIONS _____

EXPIRATION DATE: BASE _____ OPTIONS _____

PRINCIPAL PRODUCT OR SERVICE: Design/Construction and Detention/Corrections Management

Date August 14, 2007

Overview:

Federal Acquisition Regulation (FAR), subpart 19.708(b) prescribes the use of clause FAR 52.219-8, entitled "Small Business Subcontracting Plan." The following is a suggested model for use when formulating such subcontracting plan. While this model plan has been designed to be consistent with FAR 52.219-9, other formats may be acceptable. However, failure to include the essential information as exemplified in this model may cause either a delay in acceptance or the rejection of a bid or offer where the clause is applicable. Further, the use of this model is not intended to waive other requirements that may be applicable under FAR 52.219-9.

"Subcontract," as used in this clause, means any agreement (other than one involving an employer-employee relationship) entered into by a Federal Government prime Contractor or subcontractor calling for supplies or services required for performance of the contract or subcontract.

The offeror, upon request by the Contracting Officer, shall submit and negotiate a subcontracting plan, where applicable, that separately addresses subcontracting with small business, veteran-owned small business, HUBZone small business concerns, small disadvantaged business, and women-owned small business concerns.

1. Type of Plan (Check One)

_____ Individual Contract Plan (A subcontracting plan that covers the entire contract period (including option periods), applies to a specific contract, and has goals that are based on the offeror's planned subcontracting in support of the specific contract).

_____ Commercial Plan (A subcontracting plan (including goals) that covers the offeror's fiscal year and that applies to the entire production of commercial items sold by either the entire company or a portion thereof).

2. Subcontracting Goals: State separate dollar and percentage goals for small business, veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns in the following format:

(Products/services planned to be subcontracted to small business concerns are identified by *, veteran-owned small business by **, HUBZone small business by ***, small disadvantaged business by ****, and women-owned small business concerns by *****)

See #5 for methodology; however, our experience shows that the following are common products/services. We will refine this list as we move forward with the construction phase and prepare for facility operation. We pledge to submit a revised, specific plan 30 days before the Services Commencement Date.

Fire Safety Inspection Services	Legal Services
Contracted Health Services Professionals	Maintenance Supplies
Specialized Health Services	Specialized Maintenance Services
Waste Removal	Catering
Pest Control	Florist

NOTE: This list is subject to change over the life of the contract.

Also, please note that Las Vegas is a new market for CCA and we are unable to determine the specific products/services breakdown by small business entity until the local/regional vendor base is identified.

4. The following method was used in developing subcontract goals (i.e., Statement explaining how the product and service areas to be subcontracted to small business, veteran-owned small business, HUBZone small business, small disadvantaged business and women-owned small business concerns were determined.

See #5 for methodology.

(E.g., existing company source lists, the Procurement Marketing and Access Network (PRO-Net) of the Small Business Administration (SBA), veterans service organizations, the National Minority Purchasing Council Vendor Information Service, the Research and Information Division of the Minority Business Development Agency in the Department of Commerce, or small, HUBZone small disadvantage, and women-owned small business trade associations)

The Managing Director, Purchasing and Project Director will conduct two outreach opportunity fairs, one 60 days prior to groundbreaking (for construction subcontracting) and one 60 days prior to Certificate of Occupancy for provisions and services. Additionally, the Managing Director will contact and interview relative agencies to assist in identifying qualified certified DBE's and to identify potential set aside commodities and services for sourcing with DBE's. This task will be completed 60 days prior to Certificate of Occupancy and 60 days prior to groundbreaking.

The contractor shall not employ any individual who is not a United States citizen unless otherwise approved by the USMS COTR. Citizens of the United States include those who were: born in the United States (the fifty states, the District of Columbia, Puerto Rico, Guam (since 1950), or the U. S. Virgin Islands; born outside the United States to parents who are citizens of the United States, one of which was physically present in the United States or one of its outlying possessions for a continuous period of one year at any time prior to the birth of the person (in some situations only one person has to be a citizen); naturalized as a United States Citizen; or otherwise granted citizenship under authorities described in law, beginning at 8 U.S.C. 1401.

Non-citizen applicants or subcontractors must be citizens of an allied nation as defined by the United States Office of Personnel Management (See <http://www.opm.gov/employ/html/citizen.htm>).

All applicants or subcontractors, U.S. citizen or otherwise, must have, immediately prior to applying for a position: (1) resided in the United States three of the past five years; (2) worked for the United States overseas in a federal or military capacity; or, (3) been a dependent of a federal or military employee serving overseas.

The USMS will have final approval for non-citizen and non-residency employment for all potential employees and subcontractors.

The contractor shall maintain verification of training and experience which shall include credentials for all professional staff. All credentials shall be kept current and maintained for the duration of the individual's performance under the contract.

C.5.3.4 Employment Agreement

In the absence of a collective bargaining agreement, the contractor must enter into a written employment agreement with each employee assigned to work at the contractor's facility. This agreement must provide that, in recognition of the public safety requirements for uninterrupted services at the contractor's facility and in return for adequate consideration, including grievance procedures, the contractor employee agrees not to strike or otherwise interrupt normal operations at the contractor's facility without giving 10 days advance written notice. The contractor shall ensure that a contingency plan covering work actions or strikes is developed and maintained in a secure location. In the event the contractor negotiates collective bargaining agreements applicable to the work force under the contract, the contractor must use its best efforts to ensure such agreements contain provisions designed to assure continuity of services. All such agreements entered into during the contract period of performance should provide that grievances and disputes involving the interpretation or application of the agreement will be settled without resorting to strike, lockout, or other interruption of normal operations.

For this purpose, each collective bargaining agreement should provide an effective grievance procedure with arbitration as its final step, unless the parties mutually agree upon some other method of assuring continuity of operations. As part of such agreements, management and labor should agree to cooperate fully with the Federal Mediation and Conciliation Service. The contractor shall include the substance of this clause (paragraph, provision, etc.) in any subcontracts for protective services.

Guidelines of Acceptability For USMS Contract Jails

- A. INTRODUCTION: The review of background investigations and the resolution of derogatory information is an essential part of the process for determining whether an individual is suitable for government employment. These functions should be conducted, whenever possible, by designated security personnel outside of the applicant's supervisory chain. The supervisor's knowledge of derogatory information may affect the supervisor's objectivity regarding performance appraisal, promotions, etc., of the applicant. Any reference to "government applicant" within this document includes persons working under contract.
- B. PURPOSE: The purpose of this document is to assist the contract jail Warden or designee and the U.S. Marshals Service (USMS) COTR. The background investigations are conducted by the a private entity or company under contract with the warden of that facility. The background investigation is conducted in accordance with the employment procedures outlines in C.5.3.1. of the contract.

Interviews are conducted to validate the information the subject provided on the SF 85P "Questionnaire for Public Trust Positions." Interviews are also for the purpose of resolving and documenting derogatory information. Derogatory information appears in a background investigation in a number of ways. Some information is derogatory information on its face and is both easily recognized and identified. There is other information that, standing alone is somewhat innocuous. When this information is reviewed in the context of other information, it may also require resolution.

- C. PRINCIPALS: All derogatory information shall be favorably resolved by the contractor before the USMS COTR will consider granting final approval for applicants to work with federal offenders under this contract. The resolution will require the adjudicator to identify the information, explain why it is considered insignificant or provide documented resolution. It is not sufficient to resolve derogatory information by merely indicating that the subject exhibits acceptable job performance.

Adjudication of background investigations or reinvestigations that reveal activity or conduct that may render a person susceptible to coercion, duress, or blackmail will be subject to the following guidelines:

1. If the background investigation or reinvestigation demonstrates that the applicant/employee is open regarding his or her conduct, no personal interview or other action is warranted unless deemed necessary by the Warden or his designee.
2. If the background investigation or reinvestigation indicates, or raises an unresolved question as to whether the person is concealing any conduct that

reasonably would subject the person to coercion, duress, or blackmail, the Warden or designee will arrange for an interview with the applicant/employee to discuss:

- a. The issue of concealed conduct that was raised during the background investigation or reinvestigation and whether or not the person is in fact concealing any conduct that reasonably would subject the person to coercion. If the discussion demonstrates that the person is not concealing any such conduct, no further action is warranted.
- b. If the person may be concealing conduct that reasonably would subject the person to coercion, the interviewer will continue to discuss:
 1. The contractor's concern regarding the potential for coercion, pressure, manipulation, or blackmail;
 2. The contractor's Employee Standards of Conduct requirement that the applicant/employee immediately submit a written report of any attempt at coercion or blackmail to the CEO.

The interviewer should prepare a memorandum documenting the discussion and the applicant/employee's acknowledgment of the reporting requirements and submit it with the applicant/employee's personnel file. The applicant/employee is not required to sign any documentation.

Resolution of derogatory information should afford the subject an opportunity to comment on the derogatory information or a chance to offer his/her "side of the story." Resolution of derogatory information is a critical part of the adjudication process for several reasons. Information which appears derogatory can be refuted or mitigated in some instances by the subject of the background investigation. Similarly, the subject may be able to present circumstances which clarify the derogatory information.

Derogatory information is any information that, in the opinion of a reasonably objective person, tends to indicate that an individual may not possess of one or more of these qualities.

D. **DEROGATORY INFORMATION:** Listed below are general areas of concern for adjudicators:

1. **Loyalty.** Any information which indicates that the subject is not loyal to the United States should be identified as derogatory. Any background investigation which presents information which questions an applicant/employee's loyalty to the United States must be brought to the attention of the USMS COTR. If an applicant is found to be suitable or unsuitable for employment under this criteria, the USMS COTR shall be advised.

Several examples which should bring into question an individual's loyalty are:

Advocating force or violence to overthrow the government of the United States;

Establishing contact with a seditionist, anarchist or with any representative of a foreign government whose interests may be contrary to the interests of the United States; or

Membership in organizations which systematically commit criminal acts against the United States Government.

2. Close Relatives and Associates. In reviewing a background investigation, attention should be given to evidence that the subject of the investigation has close relatives or associates residing outside of the United States or who are citizens of a foreign country, especially hostile countries. Any information which tends to show the individual may be subjected to coercion or pressure should be identified as derogatory information and resolved, including frequent and/or prolonged foreign travel.

In resolving information regarding close relatives or associates, it is important to understand the nature of the relationship and the frequency of contact between the subject and the relatives or associates. Therefore, the following information should be obtained from all applicants/employees where evidence of foreign relatives or associates is identified in the background investigation case papers or the actual background investigation:

Name and address of the foreign citizen (i.e., aunt, uncle, cousin, close friend, etc.);
Relationship between subject and foreign citizen (i.e., aunt, uncle, cousin, close friend, etc.);
The frequency of contact- past, present and future--with the foreign citizen; or
The form of such contact (personal visits, letters, cards or telephone calls).

3. Undesirable Character Traits. Any trait(s) which may show the individual to be unreliable, untrustworthy or open to compromise is significant in the adjudication of the case. This information may be given by an open or confidential source, be derived from an arrest record or be indicated by the falsification of employment applications or personal history statements. All such information must be viewed in relation to the rest of the file.

Isolated incidents in a person's background are viewed less significantly than a continuing or emerging pattern of behavior.

The adjudicator should try to obtain a complete picture for employment purposes. Undesirable character traits could also place an individual in a compromising situation where coercion or pressure might be used to blackmail an applicant/employee. The following examples are provided:

- a. Sexual Conduct: Sexual conduct and behavior become important to the adjudication of a background investigation when there is evidence that the individual could be coerced or blackmailed due to sexual conduct. Should it be determined that an applicant/employee could be subjected to coercion because of sexual conduct, this information must be addressed and resolved.
 - b. Alcoholism: Any information which tends to show that the individual uses alcohol to excess or any information that shows alcohol use affecting job performance should be identified as derogatory information. Look for a pattern of behavior versus an isolated incident.
4. Psychological Conditions: Certain emotional, mental, and personality conditions can impair judgment, reliability, or trustworthiness. Treatment for a mental condition, as distinguished from marriage counseling and social services counseling for family problems, is significant and must be clarified to determine whether the subject's job performance may be adversely affected. The purpose of identifying this kind of information is to remove any reasonable doubt regarding the current seriousness of a problem. Temporary depression related to the death of a loved one or the failure of a marriage is to be expected, whereas long term depression would cause considerably greater concern.

Treatment for a mental, emotional, or personality condition must be accompanied by a recommendation from a competent mental health professional that the applicant/employee is capable to perform the duties of a public trust position and the applicant does not pose a risk to themselves or others. The applicant should display sound judgment and reliability.

5. Financial Responsibility. Failure or inability to live within one's means, satisfy debts, and meet financial obligations may indicate poor self-control, a lack of judgment, or unwillingness to abide by rules and regulations. Indebtedness becomes a legitimate concern when an individual begins to fall behind on credit card payments, alimony, child support, rent, car loans, etc. It is important to determine if the individual considers the debt just.

Some debts are clearly not the responsibility of an individual and may be the result of careless record keeping by credit reporting agencies.

Refusal to admit to a just debt is not enough to resolve an unfavorable credit record. A derogatory credit report must be resolved by the individual and

appropriate documentation provided. Any disputes between the applicant and the credit agency must be resolved by the applicant and documentation submitted.

Similarly, the repossession of an automobile for non-payment, and eviction from rental housing for non-payment, should be explained by the applicant/employee and documentation provided to show that any remaining indebtedness following the eviction or repossession has been resolved.

6. Dishonesty. Individuals entering service under this contract must be "....trustworthy....and of good conduct and character..." This requires that applicant/employees are honest when filling out all employment documents.

Discrepancies on these forms may be an indication that the applicant/employee has falsified one of the forms to either conceal past behavior, or to exaggerate or misrepresent qualifications or suitability. In either case, all discrepancies must be resolved.

7. Arrests: An arrest, regardless of the offense or when it was committed, is derogatory information. Criminal activity creates a doubt about a person's judgment, reliability, and trustworthiness. The nature and severity of the offense and when it was committed will have a bearing on the adjudication. Generally, the more recent the offense the greater impact it will have on the adjudication. An arrest that resulted in a conviction and fine/imprisonment must be accompanied by sufficient evidence that the applicant/employee has been rehabilitated.
8. Drug Usage: Evidence of the illegal use of prescription or nonprescription drugs by an applicant/employee requires resolution. In resolving drug related derogatory information, the offense must be viewed against the age of the applicant/employee and when the offense occurred. In addition, information should be obtained and consideration given regarding what drug(s) were used, how often, and any treatment the applicant/employee receive for drug usage.
9. Confidential Source Information: Background investigations will sometimes contain information provided by sources who request confidentiality under the Privacy Act. It is not permissible, in most cases, to include this information in the resolution of derogatory information because of the risk of identifying the source. Only information that is otherwise substantiated elsewhere in the investigation or pre-employment documents and from unprotected sources can be used.
- (10) Classified Information. Similarly, National Security Information classified at the "Confidential," "Secret," and "Top Secret" levels sometimes appears in background investigations. Background investigations containing such information shall be handled appropriately by the contractor.

- E. **PROCEDURES TO RESOLVE DEROGATORY INFORMATION:** Once derogatory information has been identified, either during the pre-employment process or in the review of the background investigation, it must be resolved. Resolution usually is presented in the form of written documentation obtained through an interview with the applicant/employee.

Contractor and COTR Standard Operating Procedures

Contractor Responsibilities Pre-Appointment

The Warden or designee shall be the contractor's contact person for all matters regarding the processing of contractor personnel.

Based on the following and the Guidelines of Acceptability, the warden or designee will determine if the applicant is suitable for employment. The warden or designee shall certify that the following steps have been completed with satisfactory results and submit the certification with the applicant's information.

1. The Warden or designee will conduct a pre-employment interview.
2. The Warden or designee will conduct a credit check for employment purposes as described in the Fair Credit Reporting Act. A copy of the credit report will be included in the package.
3. The Warden or designee will supply a copy of a correctly filled out Questionnaire for Public Trust Positions, SF-85P, completed by the applicant. If the applicant is required to carry a firearm while in the performance of their duties, a form SF-85P-S will be used.
4. The Warden or designee will provide the COTR with two FD-258 fingerprint cards for each applicant. The COTR will supply the contractor with fingerprint cards bearing the ORI of the COTR's office. When the COTR receives the completed fingerprint cards, he/she will mail them to the FBI. All results of the fingerprint check will be received by the COTR.
5. The Warden or designee will vouch the applicant's employment records for the past five years.
6. The Warden or designee will certify in writing that the applicant is a United States citizen or legal resident of the United States verified by appropriate documentation. For non-citizens applicants or subcontractors, the contractor must seek approval from the USMS COTR. Non-citizen applicants or subcontractors must be citizens of an allied nation as defined by the United States Office of Personnel Management (see <http://www.opm.gov/employ/html/citizen.htm>).
7. The Warden or designee will certify that the applicant has met the residency requirements.
8. The Warden or designee will certify that they have conducted a urinalysis in accordance with P.S. 3735.04, Drug Free Workplace.

Contractor and COTR Standard Operating Procedures

10. Additionally the Warden or designee will submit one completed fingerprint card (FD 258 version) to the FBI. The card will bear the ORI number for the COTR's district. The FBI will send the results directly to the COTR.
11. The Warden shall certify the above steps have been completed with satisfactory results and submit the certification to the USMS COTR requesting a conditional approval.
12. After receiving the USMS' conditional approval the contractor notify USMS COTR within 24 hours of actual entry on duty (EOD) date and of background investigation scheduling date and case number.
13. The Warden or designee is responsible for reviewing and adjudicating the background investigation (see below for further details).

USMS/COTR Responsibilities

Upon receipt of the conditional request memo or letter, the USMS COTR will run NCIC/NLET and submit the fingerprint card to the FBI.

Prior to issuing the conditional approval the COTR shall complete the following steps:

1. Run NCIC/NLETS for all states of residence as reflected on the SF 85P.
2. Upon favorable results of fingerprints and NCIC/NLETS; the COTR shall grant a conditional approval. The conditional approval shall include the following: full name, date of birth, social security number and position applied for.
3. If the fingerprint results or NCIC/NLETS contain derogatory information the conditional may or may not be issued based on the Guidelines for Acceptability. If the COTR desires additional information to resolve the issue, the warden or his designee shall be contacted to obtain additional information from the applicant.

The USMS retains authority to approve all contractor staff, subcontractors and volunteers, who work or have contact with federal detainees under the terms of this contract. No individual who is under supervision or jurisdiction of any parole, probation or correctional authority shall have contact with Federal Detainees, files, records, or movement records.

The COTR will keep a roster or spreadsheet that lists each employee at the contract facility, their title, their EOD date, date of conditional approval, the date their background investigation was received, the date their background was adjudicated and the date they were separated from employment.

Contractor and COTR Standard Operating Procedures

Once the NCIC/NLETS results are no longer needed, they will be destroyed. They will not be kept in the personnel files.

Contractor Responsibilities Post Appointment

Within one year of each on-site employee's EOD, the contractor shall obtain, review, identify and resolve derogatory information contained on the background investigation results using the Guidelines of Acceptability. The contractor shall make a determination regarding the employee's suitability for employment under this contract. Investigations with little or no derogatory information will be reviewed and forwarded to the USMS COTR within 90 days of the investigation completion date. Investigations requiring resolution of derogatory information will be forwarded within 180 days of the investigation completion date. Extended adjudication time frames, on a case-by-case basis, may be requested from the USMS COTR. Upon receipt, review and resolution of any derogatory information contained in the reinvestigation report, the Warden shall forward to the USMS COTR a written final determination regarding the employee's continued employment under this contract. A copy of the background investigation report results shall be attached. The contractor shall ensure all employees and full-time subcontractors are reinvestigated every five years as prescribed in the Scope and Coverage of a Periodic Reinvestigation in Section J of the contract.

The contractor shall maintain all personnel records, on-site, for the duration of the contract and make these records available to the USMS upon request.

Personnel working on this contract and requiring unescorted access to USMS facilities and or information systems are required to be approved by the USMS security office in accordance with Homeland Security Presidential Directive 12 as required by USMS Security Program Manager attachment B (available upon award). These personnel must be approved in writing by the USMS Personnel Security Branch before such access can be granted and may require an additional background investigation through the Office of Personnel Management at the minimum level of a NACI.

If the Warden or designee wishes to employ the applicant after finding that the applicant does not meet U. S. Marshals Service Guidelines of Acceptability, the contractor may submit a written request for a waiver. The request will contain the following:

- a. the details and circumstances of the applicant's behaviour that is outside the guidelines;
- b. the reasons why the applicant should receive further consideration;
- c. the availability of other suitable applicants.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$3.50 per hour or \$140.00 per week or \$606.67 per month

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage

determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am.

If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives.

Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made

the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE (Standard Form 1444 (SF 1444))

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. (See Section 4.6 (C)(vi)) When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or

notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

TRANSPORTATION PROPOSAL

The assumptions and scope of service are based on specific information provided by the following documents:

1. "Draft "5 dated 06/02/10, Standard Operating procedures, Regional Transfer Center, Southern Nevada Detention Center, Pahrump, Nevada
2. Western Regional Transfer Center, JPATS Transportation Support Plan, Nevada Southern Detention Center Pahrump, Nevada.

These two documents are being included as an attachment to this proposal.

Any changes in either the assumptions or scope of service may result in revised pricing.

Proposal

- (b)(7)(E)
A large black rectangular redaction box covers the content of this bullet point.
- CCA will use industry best practices and trip optimization methods in the provision of transportation services.
- CCA will comply with all applicable U.S. Department of Transportation regulations, including but not limited to drug and alcohol testing, hours of service, operator credentials, pre- and post-trip inspections, Driver Vehicle Inspection Reports (DVIR's) and vehicle logs.
- CCA will ensure the delivery of seamless and timely transportation services by dividing the transportation responsibilities between TransCor personnel and NSDC personnel with TransCor assuming responsibility for non-traditional facility transportation services as specifically defined in the scope of service and NSDC personnel assuming responsibility for emergency and scheduled medical, court and limited local jail transfer transportation. To ensure the most cost-effective and operationally efficient transportation services, some transports may be conducted by teams comprised of both TransCor and NSDC staff.
- CCA will provide a designated transportation space/office in the inmate reception area to be used jointly by TransCor and NSDC transportation staff.

- CCA will compile and submit a request for reimbursement of guard costs from USMS; this invoice will include the TransCor costs as detailed.
- CCA will provide support security staff for JPATS air transports when necessary.
- CCA will establish alternate routes if necessary and based on security intelligence.
- CCA is prepared to support transporting female inmates with a minimum of (b)(7)(E) (b)(7)(E) agent aboard the vehicle.
- Routine staffing will consist of (b)(7)(E) on all van transports and (b)(7)(E) on all transporter transports, depending on scope.
- CCA will make every effort to ensure trips arrive at receiving facilities during normal business hours prior to 2:00 p.m.
- Consistent with the contract, CCA will be responsible for providing adequate restraining devices e.g. waist chains, handcuffs, leg irons and black boxes (if required for security purposes) to accommodate the airlift and ground movements.
- CCA will coordinate with the District of Nevada's Ground Point of Contact (GPOC) for all airlifts.
- CCA will comply with USMS/JPATS prisoner property policies and procedures.
- CCA will cover "take and wait" court runs, medical runs and all other traditional facility transportation.
- This plan is based on the optimal use of allocated assets and presumes advance notice. While there is some latitude for true emergencies, they would need to be the exception, not the rule; otherwise, there are cost implications.

Scope of Service

Based upon the resources allocated for this transportation plan, which is specifically designed for the Nevada Southern Detention Center (NSDC) as an integrated service model, CCA will provide the following:

Western Regional Transfer Center

**JPATS TRANSPORTATION
SUPPORT PLAN**

**Nevada Southern Detention Center
Pahrump, Nevada**

Background:

As a result of the Federal Transfer Center (FTC) in Oklahoma City operating at capacity, and the fact that many BOP facilities are also operating at capacity, a significant number of prisoners are delayed in their movement into designated BOP facilities. These delays have resulted in increasing lengths of stay in detention facilities and increases in confinement costs. As a result of these issues, JPATS, in conjunction with its BOP, USMS and OFDT partners, has focused on moving prisoners faster to their destinations within available resources, and maximizing the efficiency of transportation systems. Part of a plan to accomplish this is the creation of several Regional Transfer Centers (RTCs) to supplement the FTC and also increase the efficiencies and reduce the backlogs in prisoner transportation. RTCs are envisioned to be detention facilities strategically placed that could provide alternative air hubs in the East and West to the FTC, as well as include significant ground transportation. The goals of the RTCs are to:

- Reduce in-transit time
- Streamline and expand ground transportation capabilities
- Assist the BOP in managing the backlog of inmates designated to BOP facilities
- Free up bed space for pre-trial inmates in highly impacted districts by expediting moves
- Reduce detention and transportation costs
- Place additional housing close to JPATs arteries serving the impacted federal agencies
- Reduce aircraft loads and increase seat availability

Currently, the East Coast RTC is located at the Robert A. Deyton facility in Lovejoy, GA. The West Coast RTC need will be satisfied through the newly constructed 1,000 bed Nevada Southern Detention Center (NSDC) in Pahrump, NV. This facility is projected to activate in October, 2010.

Purpose and Requirements:

To prepare for the projected October 1, 2010 NSDC opening, JPATS, USMS, BOP and OFDT have begun the development of an Operational JPATS transportation support plan so that NSDC can effectively serve as the Western Regional Transfer Center.

The purpose of this plan is to facilitate the movement of sentenced prisoners to their designated correctional institutions. The plan should:

- Expand the transit physical infrastructure (housing, air resources, and ground resources) to improve transportation systems.
- Improve transportation routes.
- Identify deficiencies in the transportation network that create current “choke points” and reduce or eliminate them.

- Develop operations management capabilities to ensure efficient and effective prisoner movement.

An analysis was conducted of designation and movement trends for sentenced prisoners in the West, known transportation problem areas and backlogs, and existing air and ground assets that can be connected to NSDC. Based on this analysis four requirements were identified:

Requirement 1: Connection to existing airlift and BOP bus routes to maximize movement along the West Coast utilizing current assets. The airlift and bus hub for the BOP in the West is currently at Victorville, CA and an additional bus hub exists through bi-weekly mass exchanges occurring in Dublin, California.

Requirement 2: Connection between existing heavily used transportation hubs and overflow detention facilities: Central Arizona Detention Center in Florence, AZ; Torrance County Detention Facility in Torrance, NM; San Diego Correctional Facility in Otay Mesa, CA and NSDC. All facilities, including NSDC, are operated by Corrections Corporation of America (CCA).

Requirement 3: Resolution of longstanding movement problems in the Northwest, particularly in Idaho, Montana, Utah, and Eastern Washington.

Requirement 4: Direct connection between the west and east via a point to point airlift, bypassing the FTC in Oklahoma City, and facilitating the frequent eastern movement of prisoners from western Border States. This route is even more critical now since the BOP will be deactivating the privately operated facility in California City, CA and replacing it with bed space in Folkston, GA.

While specific Standard Operating Procedures need to be developed for each requirement, the broad plans for each action have been developed and are described below.

Ground Support:

The ground support for movements in and out of the Western RTC in order to meet requirements 1 and 2 will be handled by three major proposed efforts:

1. A contractor or government operated bus run weekly from Pahrump to the Victorville, California BOP complex. This will allow access to the BOP bus routes throughout the western United States and the Victorville airlift stop.
2. A contractor or government operated bus run bi-weekly from Pahrump to Dublin, CA. This will allow access to the BOP bus routes on the West Coast particularly to Northern California, Oregon and Washington.

3. The creation of a Southwest Loop between CCA facilities, to be contractor operated. The CCA Loop or the Southwest Loop will service movements between, Pahrump, NV, Otay Mesa, CA, Florence, AZ and Torrance, NM.

Air Support:

The air support for movements in and out of the Western RTC in order to meet requirements 3 and 4 will be handled by three major proposed efforts:

1. To fly a large JPATS aircraft once a month in a proposed Northwest Loop #1 from the Mesa Arizona base to Las Vegas, Nevada, to Salt Lake City, Utah, to Great Falls, Montana. The flight would then return to Las Vegas with a large prisoner load to the RTC before returning to its Mesa base.
2. To fly a large JPATS aircraft once a month in a proposed Northwest Loop #2 from the Mesa Arizona base to Las Vegas, Nevada, to Great Falls, Montana, to Spokane, Washington. The flight would then return to Las Vegas with a large prisoner load to the RTC before returning to its Mesa base.
3. To fly a large JPATS aircraft once a month in a proposed West to East mission to fly from the Mesa Arizona base to Las Vegas, Nevada, to Alexandria, Louisiana, and Atlanta, Georgia. The flight would connect the Western and Eastern RTCs then return to its Mesa base.

Justification and Considerations:

The proposed ground and air support by JPATS would allow for maximum usage of NSDC as a Western RTC. The support would allow for a network of prisoner distribution into the facility and then further distribution to BOP facilities. The proposed air and ground operations will allow the new RTC to tie into current distribution routes and operations and to better serve some Northwest locations and districts.

The proposed CCA Loop for ground movement will allow a conduit for more movement into Texas BOP facilities using the Torrance facility for a staging point. The CCA Loop ties in all four facilities for air movements and connection to BOP bus routes. The focus of the operation will be the RTC in Nevada for weekly movement to all four facilities. The movement should rotate direction each week to allow for the flow of prisoners into and out of the CCA facilities as seen on attachment #1. This type of rotation would be similar to BOP bus route rotations and protocol.

A proposed weekly shuttle movement from NSDC and the BOP complex in Victorville and Dublin, CA is essential. This proposed shuttle will allow the RTC a connection to the BOP bus route system throughout the west. In addition, the shuttle will allow access to the Victorville airlift site and BOP access to the proposed Las Vegas airlift site. This will allow for deadline movements and access to all JPATS movement routes and systems.

The proposed airlift service to the RTC has several advantages throughout the region. This would allow service to areas that will allow greater access to JPATS air assets than currently exists. The proposed airlift service will result in less usage of SOAP aircraft particularly into Montana and Spokane for prisoner movement. Please see attachments #2 and #3 for the proposed Northwest Loops. The loops would be flown once a month on a bi-weekly basis using Mesa JPATS aircraft on a Monday when the planes are not in use in ICE missions. The third flight pattern as illustrated in attachment #4 will provide monthly East to West prisoner movement. This would bypass the FTC in Oklahoma City and move prisoners directly to their eastern designated institutions. The East to West flight would run once a month again on a Monday with Mesa JPATS Aircraft assets while they are not conducting ICE missions. The proposed air movements would thus use JPATS Mesa aircraft on three Mondays a month to support the Western RTC.

Discussions and data have shown that a Northwest Loop is best served by air assets due to weather, distance, and other factors. A CCA ground loop will support the RTC in the Southwest and further expedite the movement of prisoners into the BOP designated facilities. A West to East flight is necessary, due to a large volume now and in the future, of prisoners being designated to Eastern facilities from Western USMS districts. These proposed JPATS movements will allow for the best use of the Western RTC for the dissemination of prisoners to designated facilities. These proposals have the ability to be modified to best meet the needs of the region.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$3.59 per hour or \$143.60 per week or \$622.27 per month

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage

determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am.

If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives.

Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made

the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or

notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

HOLIDAYS: A minimum of ten paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage

determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

21. AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am.

If you are a full-time employee (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives.

Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made

the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$4.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A link to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE (Standard Form 1444 (SF 1444))

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. (See Section 4.6 (C) (vi)) When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b) (2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or

notifies the contracting officer that additional time will be required to process the request.

- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$3.81 per hour or \$152.40 per week or \$660.40 per month

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage

determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am.

If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives.

Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made

the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE (Standard Form 1444 (SF 1444))

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. (See Section 4.6 (C) (vi)). When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employee performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or

notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

Reporting Information

SEXUAL ASSAULT AWARENESS

This document is required to be posted in each Housing Unit Bulletin Board at all Contract Detention Facilities. This document may be used and adapted by Intergovernmental Service Agreement Providers.

While detained by the Department of Justice, United States Marshals Service, you have a right to be safe and free from sexual harassment and sexual assaults.

Definitions

A. Detainee-on-Detainee Sexual Abuse/Assault

One or more detainees engaging in or attempting to engage in a sexual act with another detainee or the use of threats, intimidation, inappropriate touching or other actions and/or communications by one or more detainees aimed at coercing and/or pressuring another detainee to engage in a sexual act.

B. Staff-on-Detainee Sexual Abuse/Assault

Staff member engaging in, or attempting to engage in a sexual act with any detainee or the intentional touching of a detainee's genitalia, anus, groin, breast, inner thigh, or buttocks with the intent to abuse, humiliate, harass, degrade, arouse, or gratify the sexual desires of any person. Sexual abuse/assault of detainees by staff or other detainees is an inappropriate use of power and is prohibited by DOJ policy and the law.

C. Staff Sexual Misconduct is:

Sexual behavior between a staff member and detainee which can include, but is not limited to indecent, profane or abusive language or gestures and inappropriate visual surveillance of detainees.

Prohibited Acts

A detainee, who engages in inappropriate sexual behavior with or directs it at others, can be charged with the following Prohibited Acts under the Detainee Disciplinary Policy.

- Using Abusive or Obscene Language
- Sexual Assault
- Making a Sexual Proposal
- Indecent Exposure
- Engaging in Sex Act

Detention as a Safe Environment

While you are detained, no one has the right to pressure you to engage in sexual acts or engage in unwanted sexual behavior regardless of your age, size, race, or ethnicity. Regardless of your sexual orientation, you have the right to be safe from unwanted sexual advances and acts.

Confidentiality

Information concerning the identity of a detainee victim reporting a sexual assault, and the facts of the report itself, shall be limited to those who have the need to know in order to make decisions concerning the detainee-victim's welfare and for law enforcement investigative purposes.

Report All Assaults!

If you become a victim of a sexual assault, you should report it immediately to any staff

person you trust, to include housing officers, chaplains, medical staff, supervisors or Deputy U.S. Marshals. Staff members keep the reported information confidential and only discuss it with the appropriate officials on a need to know basis. If you are not comfortable reporting the assault to staff, you have other options:

- Write a letter reporting the sexual misconduct to the person in charge or the United States Marshal. To ensure confidentiality, use special (legal) mail procedures.
- File an Emergency Detainee Grievance - If you decide your complaint is too sensitive to file with the Officer in Charge, you can file your Grievance directly with the Field Office Director. You can get the forms from your housing unit officer, or a facility supervisor.
- Write to the Office of Inspector General (OIG), which investigates allegations of staff misconduct. The address is: Office of Inspector General, U.S. Department of Justice, 950 Pennsylvania Ave. Room 4706, Washington, DC. 20530
- Call, at no expense to you, the Office of Inspector General (OIG). The phone number is 1-800-869-4499.

Individuals who sexually abuse or assault detainees can only be disciplined or prosecuted if the abuse is reported.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$3.81 per hour or \$152.40 per week or \$660.40 per month

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <http://www.dol>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C) (vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGH) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$4.02 per hour or \$160.80 per week or \$696.79 per month

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage

determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives.

Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made

the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE (Standard Form 1444 (SF 1444))

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. (See Section 4.6 (C)(vi)) When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or

notifies the contracting officer that additional time will be required to process the request.

- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

1) **COMPUTER EMPLOYEES:** Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey

data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformance may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

- (1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;
- (2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;
- (3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or
- (4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

CONTRACT MODIFICATION #####: INCORPORATION OF DHS PREA STANDARDS

This document incorporates the requirements from Subpart A of the U.S. Department of Homeland Security (DHS) regulation titled, “Standards to Prevent, Detect, and Respond to Sexual Abuse and Assault in Confinement Facilities,” 79 Fed. Reg. 13100 (Mar. 7, 2014) that are specifically applicable to detention facilities. Requirements that are applicable to the agency only have not been included, and accordingly, the numbering and sequential order within each of the below sections may not necessarily reflect those contained in Subpart A. Where any requirements of the DHS standards may conflict with the terms of the ICE detention standards currently applicable at the facility, the DHS PREA standards shall supersede:

115.6 Definitions Related to Sexual Abuse and Assault

- (1) Sexual abuse includes –
 - (a) Sexual abuse and assault of a detainee by another detainee; and
 - (b) Sexual abuse and assault of a detainee by a staff member, contractor, or volunteer.
- (2) Sexual abuse of a detainee by another detainee includes any of the following acts by one or more detainees, prisoners, inmates, or residents of the facility in which the detainee is housed who, by force, coercion, or intimidation, or if the victim did not consent or was unable to consent or refuse, engages in or attempts to engage in:
 - (a) Contact between the penis and the vulva or anus and, for purposes of this subparagraph, contact involving the penis upon penetration, however slight;
 - (b) Contact between the mouth and the penis, vulva, or anus;
 - (c) Penetration, however, slight, of the anal or genital opening of another person by a hand or finger or by any object;

- the staff member, contractor, or volunteer has the intent to abuse, arouse, or gratify sexual desire;
- (e) Threats, intimidation, harassment, indecent, profane or abusive language, or other actions or communications, aimed at coercing or pressuring a detainee to engage in a sexual act;
 - (f) Repeated verbal statements or comments of a sexual nature to a detainee;
 - (g) Any display of his or her uncovered genitalia, buttocks, or breast in the presence of an inmate, detainee, or resident, or
 - (h) Voyeurism, which is defined as the inappropriate visual surveillance of a detainee for reasons unrelated to official duties. Where not conducted for reasons relating to official duties, the following are examples of voyeurism: staring at a detainee who is using a toilet in his or her cell to perform bodily functions; requiring an inmate detainee to expose his or her buttocks, genitals, or breasts; or taking images of all or part of a detainee's naked body or of a detainee performing bodily functions.

PREVENTION PLANNING

115.11 Zero tolerance of sexual abuse; Prevention of Sexual Assault Coordinator.

- (1) Each facility shall have a written policy mandating zero tolerance toward all forms of sexual abuse and outlining the facility's approach to preventing, detecting, and responding to such conduct. The agency shall review and approve each facility's written policy.
- (2) Each facility shall employ or designate a Prevention of Sexual Assault Compliance Manager (PSA Compliance Manager) who shall serve as the facility point of contact for the ICE PSA Coordinator and who has sufficient time and authority to oversee facility efforts to comply with facility sexual abuse prevention and intervention policies and procedures.

115.13 Detainee supervision and monitoring.

- (1) Each facility shall ensure that it maintains sufficient supervision of detainees, including through appropriate staffing levels and, where applicable, video monitoring, to protect detainees against sexual abuse.
- (2) Each facility shall develop and document comprehensive detainee supervision guidelines to determine and meet the facility's detainee supervision needs, and shall review those guidelines at least annually.
- (3) In determining adequate levels of detainee supervision and determining the need for video monitoring, the facility shall take into consideration generally accepted detention and correctional practices, any judicial findings of inadequacy, the physical layout of each facility, the composition of the detainee population, the prevalence of substantiated and unsubstantiated incidents of sexual abuse, the findings and recommendations of sexual abuse incident review reports, and any other relevant factors, including but not limited to the length of time detainees spend in agency custody.
- (4) Each facility shall conduct frequent unannounced security inspections to identify and deter sexual abuse of detainees. Such inspections shall be implemented for night as well

as day shifts. Each facility shall prohibit staff from alerting others that these security inspections are occurring, unless such announcement is related to the legitimate operational functions of the facility.

115.15 Limits to cross-gender viewing and searches.

- (1) Searches may be necessary to ensure the safety of officers, civilians and detainees; to detect and secure evidence of criminal activity; and to promote security, safety, and related interests at immigration detention facilities.
- (2) Cross-gender pat-down searches of male detainees shall not be conducted unless, after reasonable diligence, staff of the same gender is not available at the time the pat-down search is required or in exigent circumstances.
- (3) Cross-gender pat-down searches of female detainees shall not be conducted unless in exigent circumstances.
- (4) All cross-gender pat-down searches shall be documented.
- (5) Cross-gender strip searches or cross-gender visual body cavity searches shall not be conducted except in exigent circumstances, including consideration of officer safety, or when performed by medical practitioners. Facility staff shall not conduct visual body cavity searches of juveniles and, instead, shall refer all such body cavity searches of juveniles to a medical practitioner.
- (6) All strip searches and visual body cavity searches shall be documented.
- (7) Each facility shall implement policies and procedures that enable detainees to shower, perform bodily functions, and change clothing without being viewed by staff of the opposite gender, except in exigent circumstances or when such viewing is incidental to routine cell checks or is otherwise appropriate in connection with a medical examination or monitored bowel movement. Such policies and procedures shall require staff of the opposite gender to announce their presence when entering an area where detainees are likely to be showering, performing bodily functions, or changing clothing.
- (8) The facility shall not search or physically examine a detainee for the sole purposes of determining the detainee's genital characteristics. If the detainee's gender is unknown, it may be determined during conversations with the detainee, by reviewing medical records, or, if necessary, learning that information as part of a standard medical examination that all detainees must undergo as part of intake or other processing procedure conducted in private, by a medical practitioner.

115.16 Accommodating detainees with disabilities and detainees who are limited English proficient.

- (1) The agency and each facility shall take appropriate steps to ensure that detainees with disabilities (including, for example, detainees who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities) have an equal opportunity to participate in or benefit from all aspects of the agency's and facility's efforts to prevent, detect, and respond to sexual abuse. Such steps shall include, when necessary to ensure effective communication with detainees who are deaf or hard of hearing, providing access to in-person, telephonic, or video interpretive services that enable effective, accurate, and impartial interpretation, both receptively and

expressively, using any necessary specialized vocabulary. In addition, the agency and facility shall ensure that any written materials related to sexual abuse are provided in formats or through methods that ensure effective communication with detainees with disabilities, including detainees who have intellectual disabilities, limited reading skills, or who are blind or have low vision. An agency or facility is not required to take actions that it can demonstrate would result in a fundamental alteration in the nature of a service, program, or activity, or in undue financial and administrative burdens, as those terms are used in regulations promulgated under title II of the Americans with Disabilities Act, 28 CFR 35.164.

- (2) The agency and each facility shall take steps to ensure meaningful access to all aspects of the agency's and facility's efforts to prevent, detect, and respond to sexual abuse to detainees who are limited English proficient, including steps to provide in-person or telephonic interpretive services that enable effective, accurate, and impartial interpretation, both receptively and expressively, using any necessary specialized vocabulary.
- (3) In matters relating to allegations of sexual abuse, the agency and each facility shall provide in-person or telephonic interpretation services that enable effective, accurate, and impartial interpretation, by someone other than another detainee, unless the detainee expresses a preference for another detainee to provide interpretation, and the agency determines that such interpretation is appropriate and consistent with DHS policy. The provision of interpreter services by minors, alleged abusers, detainees who witnessed the alleged abuse, and detainees who have a significant relationship with the alleged abuser is not appropriate in matters relating to allegations of sexual abuse.

115.17 Hiring and promotion decisions.

- (1) An agency or facility shall not hire or promote anyone who may have contact with detainees, and shall not enlist the services of any contractor or volunteer who may have contact with detainees, who has engaged in sexual abuse in a prison, jail, holding facility, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C. 1997); who has been convicted of engaging or attempting to engage in sexual activity facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or who has been civilly or administratively adjudicated to have engaged in such activity.
- (2) An agency or facility considering hiring or promoting staff shall ask all applicants who may have contact with detainees directly about previous misconduct described in paragraph (1) of this section, in written applications or interviews for hiring or promotions and in any interviews or written self-evaluations conducted as part of reviews of current employees. Agencies and facilities shall also impose upon employees a continuing affirmative duty to disclose any such misconduct. The agency, consistent with law, shall make its best efforts to contact all prior institutional employers of an applicant for employment, to obtain information on substantiated allegations of sexual abuse or any resignation during a pending investigation of alleged sexual abuse.
- (3) Before hiring new staff who may have contact with detainees, the agency or facility shall conduct a background investigation to determine whether the candidate for hire is suitable for employment with the facility or agency, including a criminal background

records check. Upon request by the agency, the facility shall submit for the agency's approval written documentation showing the detailed elements of the facility's background check for each staff member and the facility's conclusions. The agency shall conduct an updated background investigation every five years for agency employees who may have contact with detainees. The facility shall require an updated background investigation every five years for those facility staff who may have contact with detainees and who work in immigration-only detention facilities.

- (4) The agency or facility shall also perform a background investigation before enlisting the services of any contractor who may have contact with detainees. Upon request by the agency, the facility shall submit for the agency's approval written documentation showing the detailed elements of the facility's background check for each contractor and the facility's conclusions.
- (5) Material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination or withdrawal of an offer of employment, as appropriate.
- (6) In the event the agency contracts with a facility for the confinement of detainees, the requirements of this section otherwise applicable to the agency also apply to the facility and its staff.

115.18 Upgrades to facilities and technologies.

- (1) When designing or acquiring any new facility and in planning any substantial expansion or modification of existing facilities, the facility or agency, as appropriate, shall consider the effect of the design, acquisition, expansion, or modification upon their ability to protect detainees from sexual abuse.
- (2) When installing or updating a video monitoring system, electronic surveillance system, or other monitoring technology in an immigration detention facility, the facility or agency, as appropriate, shall consider how such technology may enhance their ability to protect detainees from sexual abuse.

RESPONSIVE PLANNING

115.21 Evidence protocols and forensic medical examinations.

- (1) To the extent that the agency or facility is responsible for investigating allegations of sexual abuse involving detainees, it shall follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions. The protocol shall be developed in coordination with DHS and shall be developmentally appropriate for juveniles, where applicable.
- (2) The agency and each facility developing an evidence protocol referred to in paragraph (1) of this section, shall consider how best to utilize available community resources and services to provide valuable expertise and support in the areas of crisis intervention and counseling to most appropriately address victims' needs. Each facility shall establish procedures to make available, to the full extent possible, outside victim services following incidents of sexual abuse; the facility shall attempt to make available to the victim a victim advocate from a rape crisis center. If a rape crisis center is not available

to provide victim advocate services, the agency shall provide these services by making available a qualified staff member from a community-based organization, or a qualified agency staff member. A qualified agency staff member or a qualified community-based staff member means an individual who has received education concerning sexual assault and forensic examination issues in general. The outside or internal victim advocate shall provide emotional support, crisis intervention, information, and referrals.

- (3) Where evidentiarily or medically appropriate, at no cost to the detainee, and only with the detainee's consent, the facility shall arrange for an alleged victim detainee to undergo a forensic medical examination by qualified health care personnel, including a Sexual Assault Forensic Examiner (SAFE) or Sexual Assault Nurse Examiner (SANE) where practicable. If SAFEs or SANEs cannot be made available, the examination can be performed by other qualified health care personnel.
- (4) As requested by a victim, the presence of his or her outside or internal victim advocate, including any available victim advocacy services offered by a hospital conducting a forensic exam, shall be allowed for support during a forensic exam and investigatory interviews.
- (5) To the extent that the agency is not responsible for investigating allegations of sexual abuse, the agency or the facility shall request that the investigating agency follow the requirements of paragraphs (1) through (4) of this section.

115.22 Policies to ensure investigation of allegations and appropriate agency oversight.

- (1) The agency shall establish an agency protocol, and shall require each facility to establish a facility protocol, to ensure that each allegation of sexual abuse is investigated by the agency or facility, or referred to an appropriate investigative authority.
- (2) The agency shall ensure that the agency and facility protocols required by paragraph (a) of this section, include a description of responsibilities of the agency, the facility, and any other investigating entities; and require the documentation and maintenance, for at least five years, of all reports and referrals of allegations of sexual abuse.
- (3) The agency shall post its protocols on its Web site; each facility shall also post its protocols on its Web site, if it has one, or otherwise make the protocol available to the public.
- (4) Each facility protocol shall ensure that all allegations are promptly reported to the agency as described in paragraphs (5) and (6) of this section, and, unless the allegation does not involve potentially criminal behavior, are promptly referred for investigation to an appropriate law enforcement agency with the legal authority to conduct criminal investigations. A facility may separately, and in addition to the above reports and referrals, conduct its own investigation.
- (5) When a detainee, prisoner, inmate, or resident of the facility in which an alleged detainee victim is housed is alleged to be the perpetrator of detainee sexual abuse, the facility shall ensure that the incident is promptly reported to the Joint Intake Center, the ICE Office of Professional Responsibility or the DHS Office of Inspector General, as well as the appropriate ICE Field Office Director, and, if it is potentially criminal, referred to an appropriate law enforcement agency having jurisdiction for investigation.
- (6) When a staff member, contractor, or volunteer is alleged to be the perpetrator of detainee sexual abuse, the facility shall ensure that the incident is promptly reported to the Joint

Intake Center, the ICE Office of Professional Responsibility or the DHS Office of Inspector General, as well as to the appropriate ICE Field Office Director, and to the local government entity or contractor that owns or operates the facility. If the incident is potentially criminal, the facility shall ensure that it is promptly referred to an appropriate law enforcement agency having jurisdiction for investigation.

TRAINING AND EDUCATION

115.31 Staff training.

- (1) The agency shall train, or require the training of, all employees who may have contact with immigration detainees, and all facility staff, to be able to fulfill their responsibilities under this part, including training on:
 - (a) The agency's and the facility's zero-tolerance policies for all forms of sexual abuse;
 - (b) The right of detainees and staff to be free from sexual abuse, and from retaliation for reporting sexual abuse;
 - (c) Definitions and examples of prohibited and illegal sexual behavior;
 - (d) Recognition of situations where sexual abuse may occur;
 - (e) Recognition of physical, behavioral, and emotional signs of sexual abuse, and methods of preventing and responding to such occurrences;
 - (f) How to avoid inappropriate relationships with detainees;
 - (g) How to communicate effectively and professionally with detainees, including lesbian, gay, bisexual, transgender, intersex, or gender nonconforming detainees;
 - (h) Procedures for reporting knowledge or suspicion of sexual abuse; and
 - (i) The requirement to limit reporting of sexual abuse to personnel with a need-to-know in order to make decisions concerning the victim's welfare and for law enforcement or investigative purposes.
- (2) All current facility staff, and all agency employees who may have contact with immigration detention facility detainees, shall be trained within one year of May 6, 2014, and the agency or facility shall provide refresher information every two years.
- (3) The agency and each facility shall document that staff that may have contact with immigration facility detainees have completed the training.

115.32 Other training.

- (1) The facility shall ensure that all volunteers and other contractors (as defined in paragraph (4) of this section) who have contact with detainees have been trained on their responsibilities under the agency's and the facility's sexual abuse prevention, detection, intervention and response policies and procedures.
- (2) The level and type of training provided to volunteers and other contractors shall be based on the services they provide and level of contact they have with detainees, but all volunteers and other contractors who have contact with detainees shall be notified of the agency's and the facility's zero-tolerance policies regarding sexual abuse and informed how to report such incidents.

- (3) Each facility shall receive and maintain written confirmation that volunteers and other contractors who have contact with immigration facility detainees have completed the training.
- (4) In this section, the term *other contractor* means a person who provides services on a non-recurring basis to the facility pursuant to a contractual agreement with the agency or facility.

115.33 Detainee education.

- (1) During the intake process, each facility shall ensure that the detainee orientation program notifies and informs detainees about the agency's and the facility's zero-tolerance policies for all forms of sexual abuse and includes (at a minimum) instruction on:
 - (a) Prevention and intervention strategies;
 - (b) Definitions and examples of detainee-on-detainee sexual abuse, staff-on-detainee sexual abuse and coercive sexual activity;
 - (c) Explanation of methods for reporting sexual abuse, including to any staff member, including a staff member other than an immediate point-of-contact line officer (e.g., the compliance manager or a mental health specialist), the DHS Office of Inspector General, and the Joint Intake Center;
 - (d) Information about self-protection and indicators of sexual abuse;
 - (e) Prohibition against retaliation, including an explanation that reporting sexual abuse shall not negatively impact the detainee's immigration proceedings; and
 - (f) The right of a detainee who has been subjected to sexual abuse to receive treatment and counseling.
- (2) Each facility shall provide the detainee notification, orientation, and instruction in formats accessible to all detainees, including those who are limited English proficient, deaf, visually impaired or otherwise disabled, as well as to detainees who have limited reading skills.
- (3) The facility shall maintain documentation of detainee participation in the intake process orientation.
- (4) Each facility shall post on all housing unit bulletin boards the following notices:
 - (a) The DHS-prescribed sexual assault awareness notice;
 - (b) The name of the Prevention of Sexual Abuse Compliance Manager; and
 - (c) The name of local organizations that can assist detainees who have been victims of sexual abuse.
- (5) The facility shall make available and distribute the DHS-prescribed "Sexual Assault Awareness Information" pamphlet.
- (6) Information about reporting sexual abuse shall be included in the agency Detainee Handbook made available to all immigration detention facility detainees.

115.34 Specialized training: Investigations.

- (1) In addition to the general training provided to all facility staff and employees pursuant to § 115.31, the agency or facility shall provide specialized training on sexual abuse and effective cross-agency coordination to agency or facility investigators, respectively, who conduct investigations into allegations of sexual abuse at immigration detention facilities. All investigations into alleged sexual abuse must be conducted by qualified investigators.

- (2) The agency and facility must maintain written documentation verifying specialized training provided to investigators pursuant to this section.

115.35 Specialized training: Medical and mental health care.

- (1) The agency shall review and approve the facility's policy and procedures to ensure that facility medical staff is trained in procedures for examining and treating victims of sexual abuse, in facilities where medical staff may be assigned these activities.

ASSESSMENT FOR RISK OF SEXUAL VICTIMIZATION AND ABUSIVENESS

115.41 Assessment for risk of victimization and abusiveness.

- (1) The facility shall assess all detainees on intake to identify those likely to be sexual aggressors or sexual abuse victims and shall house detainees to prevent sexual abuse, taking necessary steps to mitigate any such danger. Each new arrival shall be kept separate from the general population until he/she is classified and may be housed accordingly.
- (2) The initial classification process and initial housing assignment should be completed within twelve hours of admission to the facility.
- (3) The facility shall also consider, to the extent that the information is available, the following criteria to assess detainees for risk of sexual victimization:
 - (a) Whether the detainee has a mental, physical, or developmental disability;
 - (b) The age of the detainee;
 - (c) The physical build and appearance of the detainee;
 - (d) Whether the detainee has previously been incarcerated or detained;
 - (e) The nature of the detainee's criminal history;
 - (f) Whether the detainee has any convictions for sex offenses against an adult or child;
 - (g) Whether the detainee has self-identified as gay, lesbian, bisexual, transgender, intersex, or gender nonconforming;
 - (h) Whether the detainee has self-identified as having previously experienced sexual victimization; and
 - (i) The detainee's own concerns about his or her physical safety.
- (4) The initial screening shall consider prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to the facility, in assessing detainees for risk of being sexually abusive.
- (5) The facility shall reassess each detainee's risk of victimization or abusiveness between 60 and 90 days from the date of initial assessment, and at any other time when warranted based upon the receipt of additional, relevant information or following an incident of abuse or victimization.
- (6) Detainees shall not be disciplined for refusing to answer, or for not disclosing complete information in response to, questions asked pursuant to paragraphs (3)(a), (3)(g), (3)(h), or (3)(i) of this section.
- (7) The facility shall implement appropriate controls on the dissemination within the facility of responses to questions asked pursuant to this standard in order to ensure that sensitive

information is not exploited to the detainee's detriment by staff or other detainees or inmates.

115.42 Use of assessment information.

- (1) The facility shall use the information from the risk assessment under § 115.41 of this part to inform assignment of detainees to housing, recreation and other activities, and voluntary work. The agency shall make individualized determinations about how to ensure the safety of each detainee.
- (2) When making assessment and housing decisions for a transgender or intersex detainee, the facility shall consider the detainee's gender self-identification and an assessment of the effects of placement on the detainee's health and safety. The facility shall consult a medical or mental health professional as soon as practicable on this assessment. The facility should not base placement decisions of transgender or intersex detainees solely on the identity documents or physical anatomy of the detainee; a detainee's self-identification of his/her gender and self-assessment of safety needs shall always be taken into consideration as well. The facility's placement of a transgender or intersex detainee shall be consistent with the safety and security considerations of the facility, and placement and programming assignments for each transgender or intersex detainee shall be reassessed at least twice each year to review any threats to safety experienced by the detainee.
- (3) When operationally feasible, transgender and intersex detainees shall be given the opportunity to shower separately from other detainees.

115.43 Protective custody.

- (1) The facility shall develop and follow written procedures consistent with the standards in this subpart for each facility governing the management of its administrative segregation unit. These procedures, which should be developed in consultation with the ICE Enforcement and Removal Operations Field Office Director having jurisdiction for the facility, must document detailed reasons for placement of an individual in administrative segregation on the basis of a vulnerability to sexual abuse or assault.
- (2) Use of administrative segregation by facilities to protect detainees vulnerable to sexual abuse or assault shall be restricted to those instances where reasonable efforts have been made to provide appropriate housing and shall be made for the least amount of time practicable, and when no other viable housing options exist, as a last resort. The facility should assign detainees vulnerable to sexual abuse or assault to administrative segregation for their protection until an alternative means of separation from likely abusers can be arranged, and such an assignment shall not ordinarily exceed a period of 30 days.
- (3) Facilities that place vulnerable detainees in administrative segregation for protective custody shall provide those detainees access to programs, visitation, counsel and other services available to the general population to the maximum extent practicable.
- (4) Facilities shall implement written procedures for the regular review of all vulnerable detainees placed in administrative segregation for their protection, as follows:

- (a) A supervisory staff member shall conduct a review within 72 hours of the detainee's placement in administrative segregation to determine whether segregation is still warranted; and
 - (b) A supervisory staff member shall conduct, at a minimum, an identical review after the detainee has spent seven days in administrative segregation, and every week thereafter for the first 30 days, and every 10 days thereafter.
- (5) Facilities shall notify the appropriate ICE Field Office Director no later than 72 hours after the initial placement into segregation, whenever a detainee has been placed in administrative segregation on the basis of a vulnerability to sexual abuse or assault.

REPORTING

115.51 Detainee reporting.

- (1) The agency and each facility shall develop policies and procedures to ensure that detainees have multiple ways to privately report sexual abuse, retaliation for reporting sexual abuse, or staff neglect or violations of responsibilities that may have contributed to such incidents. The agency and each facility shall also provide instructions on how detainees may contact their consular official, the DHS Office of the Inspector General or, as appropriate, another designated office, to confidentially and, if desired, anonymously, report these incidents.
- (2) The agency shall also provide, and the facility shall inform the detainees of, at least one way for detainees to report sexual abuse to a public or private entity or office that is not part of the agency, and that is able to receive and immediately forward detainee reports of sexual abuse to agency officials, allowing the detainee to remain anonymous upon request.

115.53 Detainee access to outside confidential support services.

- (1) Each facility shall utilize available community resources and services to provide valuable expertise and support in the areas of crisis intervention, counseling, investigation and the prosecution of sexual abuse perpetrators to most appropriately address victims' needs. The facility shall maintain or attempt to enter into memoranda of understanding or other agreements with community service providers or, if local providers are not available, with national organizations that provide legal advocacy and confidential emotional support services for immigrant victims of crime.
- (2) Each facility's written policies shall establish procedures to include outside agencies in the facility's sexual abuse prevention and intervention protocols, if such resources are available.
- (3) Each facility shall make available to detainees information about local organizations that can assist detainees who have been victims of sexual abuse, including mailing addresses and telephone numbers (including toll-free hotline numbers where available). If no such local organizations exist, the facility shall make available the same information about national organizations. The facility shall enable reasonable communication between detainees and these organizations and agencies, in as confidential a manner as possible.
- (4) Each facility shall inform detainees prior to giving them access to outside resources, of the extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws.

115.54 Third-party reporting.

Removal from their position and from the Federal service is the presumptive disciplinary sanction for staff who have engaged in or attempted or threatened to engage in sexual abuse, as defined under the definition of sexual abuse of a detainee by a staff member, contractor, or volunteer, paragraphs (a) - (d) and (g) - (h) of the definition of "sexual abuse of a detainee by a staff member, contractor, or volunteer" in § 115.6.

The facility shall implement the recommendations for improvement, or shall document its reasons for not doing so in a written response. Both the report and response shall be forwarded to the Field Office Director, for transmission to the ICE PSA Coordinator.

- (3) Each facility shall conduct an annual review of all sexual abuse investigations and resulting incident reviews to assess and improve sexual abuse intervention, prevention and response efforts. If the facility has not had any reports of sexual abuse during the annual reporting period, then the facility shall prepare a negative report. The results and findings of the annual review shall be provided to the facility administrator and Field Office Director or his or her designee, who shall transmit it to the ICE PSA Coordinator.

4.6. Limits to Cross-Gender Viewing.

- 1) The FOD shall ensure that detainees are permitted to shower (where showers are available), perform bodily functions, and change clothing without being viewed by staff of the opposite gender, except in exigent circumstances or when such viewing is incidental to routine hold room checks, or is otherwise appropriate in connection with a medical exam or monitored bowel movement under medical supervision.

 - b) Visual inspections of every hold room will be conducted at the beginning and conclusion of daily operations to ensure that the hold rooms are operational and that no contraband has been introduced prior to placing a detainee into the room. Visual inspections will be recorded in the log.
 - c) Any evidence of tampering with doors, locks, windows, grills, telephones, plumbing or electrical fixtures will be immediately reported to a supervisor for corrective action or repair and noted in the log. - a) Develop medical emergency procedures and response plans for medical emergencies (to include appropriate supervisory notification).
- b) Are aware of the location of emergency medical supplies and equipment.
- c) Respond immediately to observed or reported medical emergencies, and contact local emergency medical services when a detainee is determined to need urgent medical care.
 - i) If the detainee is removed from a holding facility for medical treatment, ERO personnel shall accompany and remain with the detainee until the completion of treatment and official medical clearance is provided.
 - ii) If the detainee is hospitalized, appropriate supervisory notification shall occur.

4.10. Sexual Abuse and Assault Prevention.

 - b) The FOD shall ensure that detainees who may be held overnight with other detainees are assessed to determine their risk of being either sexually abused or assaulted or sexually abusive, to include being asked about their concerns for their physical safety.

- d) The FOD shall implement appropriate controls on the dissemination of any sensitive information regarding a detainee provided pursuant to screening procedures.
 - e) For detainees identified as being at high risk for victimization, the FOD shall provide heightened protection, including continuous direct sight and sound supervision, single-housing, or placement in a hold room actively monitored on video by a staff member sufficiently proximate to intervene, unless no such option is feasible.

4.11. Responding to Sexual Abuse and Assault Incidents.

The FOD shall ensure a coordinated, multidisciplinary team approach to responding to allegations of sexual abuse and assault occurring in holding facilities, or in the course of

 - d) If the sexual abuse or assault occurred within a time period that still allows for the collection of physical evidence, ensures that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating.
